

How to create bonus download page ?

What is Bonus Download Pages:

Bonus download page are used to deliver the FE or OTO bonuses promised on the bonus page for a particular product.

Why we use Bonus Download Page:

Bonus download pages are given to customers who purchased the products from our affiliate link. This contains download links bonuses or items listed on our bonus page as fulfillment after they purchase the promoted product.

Prerequisites:

A complete list of bonuses from the bonus page of the product being promoted.

Process:

1. Login to <http://engageleads.com/bonus/wp-admin>

you can find login details in lastpass

2. Navigate to Pages from the sidebar

3. Search the name of the bonus page you want to create a download page for

4. Choose Clone Page after the bonus page has been located

5. Change the name and link accordingly

6. Click on Update button to save the name and link changes

7. Start Optimize Press by click on Launch Now button under Live Editor

8. Remove the demo video and change the headline accordingly

9. Remove details about the software and only include the bonuses offered

9. Add download button for each bonus item on the page

10. For download links of each bonuses go to

<https://docs.google.com/spreadsheets/d/10BVEtdnbybC8D3xoIhxs-LMAILtUt7evpnAuMG1wVHY/edit?ts=581191fe#gid=0>

11. Make sure to save the changes after updating the page

What can go wrong:

For bonuses provided by the product being promoted we don't have access to that, we just have to simply provide an instruction that the customers can see that the particular bonus will be available for download on their members area.
